The Warnerbus Citroen Relay Accessible Minibus

Warnerbus specialises in the bespoke conversion of the Citroen Relay. Available in four wheel bases, the Warnerbus Relay range of minibuses offers you a new dimension in passenger safety and comfort.

The Citroen Relay is an extremely spacious vehicle with easy access through a low floor. It can comfortably accommodate up to 14 seats (even up to 17 in the extra long wheel base) without compromising on passenger comfort. Its ample head room and modern features make the

Relay an appealing vehicle to the discerning customer.

Entry is through a full height side door which gives easy passenger access. A variety of tail-lifts is available for wheelchair and disabled access at the rear of the vehicle.

Our standard specification includes fully bonded glazing to manufacturer's specification, luxurious, but hardwearing trim, M1 and M2 tested passenger seats (all fitted with integral lap and diagonal belts) which conform to the latest EEC Directives. An extensive list of options is available to enable the discerning customer to bespoke their minibus to meet their specific requirements.

Driving Quality™
